Buy Sur Ron Storm Bee Online In USA

~~$8,500.00~~ **$7,599.00**

The 2023 Storm Bee F, Sur Rons largest electric motorcycle, performs as well as it looks. Whether you're heading out to carve some single-trail or a weeknight of laps at the local MX track, the Storm Bee delivers a seat-of-the-pants riding experience like few other off-road bikes can. With two types of tires, light kit, and optional plate holder you will turn heads everywhere you go.

Description

Sur Ron Storm Bee
Product Features

22,500W high torque motor
top speed of 68 mph
75 mile range
4 Hours recharge time
torque of 520Nm
Titanium gold four piston brakes
104V/55Ah Lithium Ion battery
Drive 530 O-ring Chain
Motor, display, controller, and battery is covered by a 12 month warranty.
Surron is setting another benchmark in the electric off-road world with the 2023 Storm Bee F. With 22.5 kW of electric power in a full-size package, the Storm Bee is for savvy off-road riders ready to make the shift from gas-powered engines. Imagine no more oil changes, no spilled gas, no top-end rebuilds… and no noise. Just plug in, charge up, and ride. The lack of emissions and noise will keep the neighbours happy; the performance will keep you happy.
The North American version of the 2023 Storm Bee F comes as an off-road-only model. Unique to the North American version, you'll receive both a headlight and number plate to cater the bike to your taste and riding environment.
Liquid-cooled, brushless electric motor, Turbo mode & reverse gear
3 riding modes, traction control, regenerative braking
Adjustable off-road suspension, 21/18" wheels (front/rear)
On road option available with 110/70R17, 140/60R17 (front/rear)
Max. range: 120 km (75 miles) on a full charge @ 50 km/h (31 mph)
Switchable headlight & number plate included (North American version only)
104V (DC) rated voltage
LED Head Light
Sport, Rain, Eco, Turbo
ASR (Acceleration Slip Reduction, a.k.a. traction control), BERS (Brake Energy Regenerative System)
47 mm inverted fork, 290 mm travel, adjustable compression & rebound
LCD Digital Dash
INNOVATIVE FRAME DESIGN
The Storm Bee's high-strength aluminum frame offers both stiffness and flexibility to optimize the riding experience. The compact arrangement of the

battery pack, motor control unit (MCU) and motor minimizes unsprung weight and balances the Storm Bee. The 1,430 mm wheelbase and steering geometry give the Storm Bee great maneuverability and excellent high-speed stability off-road.

TURBO & REVERSE BUTTONS

Two of the most unique features on the Surron Storm Bee are the turbo and reverse buttons. Pressing the turbo button gives you a short, extra boost of power at full throttle. Meanwhile, the functional reverse button will be a welcome feature for riders who find themselves in tricky situations on the trail. It's this kind of innovation and outside-the-box thinking that sets Sur Ron apart.

HIGH PERFORMANCE ELECTRIC POWERTRAIN

The heart of the Storm Bee's powertrain is its 104V/55Ah battery pack, powerful enough to propel the Storm Bee to a top speed of 75 mph and a max range of 70 miles. Recharge the Storm Bee via its included charger through a conventional wall outlet in 4 hours. A precision-built FOC motor control unit safely and efficiently manages power to the liquid-cooled, brushless (BLDC) motor. Built-in sensors automatically optimize power delivery if temperatures get too high, maximizing battery life.

Warranty Information:

For 30 days after the delivery date we can replace any part that is deemed defective from manufacturing.

The power system (motor, controller, display and battery) has a 12 month limited warranty. Chassis, swing arm and other none wear part have a 12 months warranty.

We do have exclusions for normal wear components (such as bearings, seals, chain, brake components, suspension valving), as well as misuse or failure caused by damages due to accident, collisions, or neglect. Misuse also includes altering any wiring, or installing any non-genuine parts, as well as any use for racing. Any misuse in charging, storing, or discharging will void this limited warranty. Limited warranty are non-transferable and you must have proof of purchase from us before asking for warranty replacement.

FREE SHIPPING – Please note, due to high demand shipping times can take up to 6-8 weeks.
